

**Name of Game: Bubble
Pirate**

Games's name should
be Bubble Pirate

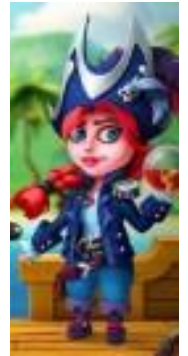

The two buttons at
the bottom are not
working

Put the character of a pirate with the possibility of choosing a character (woman or man).

Use of the 3 wallpapers available.

Can't play with the female character

We will keep the world map with 100 levels. The stars represent the level reached in a game.

Can't access map changing options

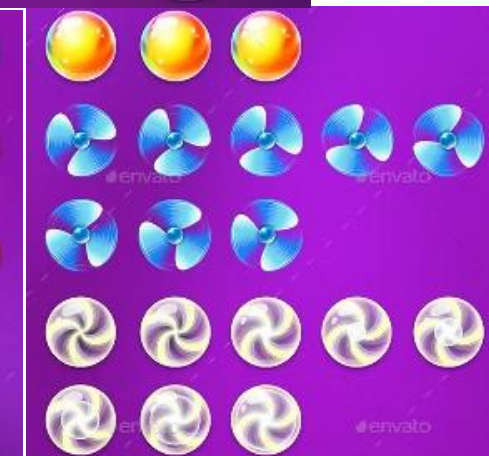

Keep all the elements of the game page: cannon, pirate, bucket, animations, game level sign

Keep the available animations if possible and distribute them according to the levels

Possibility to put the chests that cover 3 bubbles vs basic game with a single bubble for babies? If not, we put the star bubbles..

This is not taken into account.
Possible or not??
